

RESULT GTM TAG IN STG

1. ToU & PP Viewed

The screenshot displays a web browser window on the left showing a 'Terms of Use & Privacy Policy' page with a 'Continue' button. On the right, the GTM interface shows the configuration for the 'GA4 Page View - Tou Viewed' tag. The tag is a Google Analytics: Peristiwa GA4 type, with a firing status of 'Succeeded'. The properties table lists 'Kirim data E-commerce' as false, 'Nama Peristiwa' as 'tou_viewed', and 'ID Pengukuran' as 'G-D0G17N664V'. The firing triggers section shows a 'tou_viewed' trigger with filters for '_event' equals 'gtm.js' and 'Page URL' contains 'https://stg-app.privypass.id/registration'. There are no blocking triggers.

Name	Value
Type	Google Analytics: Peristiwa GA4

- Event_Name = onboard_ktp_wni_viewed
- Perlu adanya URL yang beda, path, atau # dengan tujuan pembeda tiap page

12. OCR Continued

The screenshot shows a web browser window with the URL `app.privypass.id/boarding`. The main content area displays the 'Make sure the image is readable' step. It features a progress bar at the top with a red dot indicating the current step. Below the progress bar, the title 'Make sure the image is readable' is followed by the sub-header 'This document is required to verify your identity.' A dashed box contains a placeholder image of an ID card. Below the dashed box, the text 'Drag your ID card picture here or click [browse](#)' is displayed. At the bottom, there are instructions: 'ID card picture must be clearly readable', 'Use original ID card', and 'ID card is active and valid'.
